Readers may wish to seek independent and professional advice and conduct their own independent investigation and analysis of the information contained in this document and of the business, operations, financial condition, prospects, status and affairs of Unicaja Banco.

This document includes, in addition to historical information, forward-looking statements about revenue and earnings of Unicaja Banco and about matters such as its industry, business strategy, goals and expectations concerning its market position, future operations, margins, profitability, capital expenditures, capital resources and other financial and operating information. Forward-looking statements include statements concerning plans, objective, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The words "believe", "expect", "anticipate", "intends", "estimate", "forecast", "project", "will", "may", "should" and similar expressions identify forward-looking statements. Other forward looking statements can be identified from the context in which they are made. These forward-looking statements are based on numerous assumptions regarding the present and future business strategies of Unicaja Banco and the environment in which Unicaja Banco expects to operate in the future. These forward-looking statements involve known and unknown risks, uncertainties, assumptions, estimates and other factors, which may be beyond Unicaja Banco's control and which may cause the actual results, performance or achievements of Unicaja Banco, or industry results, to be materially different from those expressed or implied by these forward-looking statements. None of the future projections, expectations, estimates or prospects in this document should be taken as forecasts or promises nor should they be taken as implying any indication, assurance or guarantee that the assumptions on which such future projections, expectations, estimates or prospects have been prepared are correct or exhaustive or, in the case of the assumptions, fully stated in the document. Many factors could cause the actual results, performance or achievements of Unicaja Banco to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. Should one or more of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated, expected or targeted. As a result of these risks, uncertainties and assumptions, you should not place undue reliance on these forward-looking statements as a prediction of actual results or otherwise.

The information in this document has not been independently verified and will not be updated. The information in this document, including but not limited to forward-looking statements, applies only as of the date of this document and is not intended to give any assurances as to future results. Unicaja Banco expressly disclaims any obligation or undertaking to disseminate any updates or revisions to the information, including any financial data and any forward-looking statements, contained in this document, and will not publicly release any revisions that may affect the information contained in this document and that may result from any change in its expectations, or any change in events, conditions or circumstances on which these forward-looking statements are based or whichever other events or circumstances arising on or after the date of this document.

- Very conservative provisioning policy
- Comfortable provisioning levels ahead of IFRS 9 implementation
- We have followed a conservative approach and decided to book provisions related to mortgage floors of €392m to cover potential risks¹
 - Mortgage floors provisions are classified as part of the credit and loans provisions although we exclude them from NPL coverage calculation

Source: Company data

(1) For the calculation of such provisions, we have estimated different risk levels according to the different situation affecting these clauses, assuming certain other hypotheses, assumptions and premises as considered reasonable and based on the following categories: mortgage loans with active clauses in force with current clause, subrogated mortgages and other mortgages with limited expected impact (such as NPL, renegotiated loans, loans that have already been the subject of a binding judgment of a Spanish court and loans written off or cancelled)

Current Implied interest rates could have a positive impact on returns in the short term, and especially in the medium term

Relevant reference for sensitive liabilities: 12M *Letras del Tesoro*

- Historically Term Deposits were linked primarily to *12M Letras del Tesoro* (Spanish Sovereign bond)
- Any potential interest rate increase should not be transferred to Term Deposits immediately, until *Letras* quotes close to positive territory
- 17% of liabilities are sensitive to the evolution of *Letras del Tesoro*
