Consequent amendment of Article 5 of the Bylaws. Delegation of powers.

The General Meeting of shareholders of Unicaja Banco agrees the reduction of the capital share with the goal of increasing the Company's voluntary reserves, all of the above in accordance with the terms and conditions set below.

(A) Capital reduction

It is agreed to reduce the Company's share capital, currently set in the amount of 1,579,761,024.00 euros –and which may be increased to 2,655,060,788.00 euros as a consequence of the capital increase arising from the merger between Unicaja Banco (absorbing company) and Liberbank, S.A. (absorbed company) (the “**Merger**”)-, in an amount to be determined and up to 1,991,295,591.00 euros. The said reduction intends to increase the Company's reserves, through the creation of a new voluntary restricted reserve, which may only be used with the requirements set for the reduction of capital share.

The share capital reduction is carried out by decreasing the nominal value of all the shares in circulation and representing the Company's share capital on the moment of implementation of the agreement in 0.75 euros per share, from the current nominal value of 1 euro per share, down to 0.25 euros per share. The total maximum amount of the share capital reduction is, therefore,

1,991,295,591.00 euros. The share capital reduction affects to all shares, without the existence difference in treatment among them.

The final amount of the share capital reduction will depend on the number of shares finally issued to cover the exchange of shares arising from the Merger, which may involve a capital increase of up to 1,075,299,764 euros, through the issue and circulation of up to 1,075,299,764 new shares with a nominal value of 1 euro each.

As a consequence of the capital reduction, the Company's voluntary reserves increase by up to 1,991,295,591.00 euros.

It is hereby stated that, in accordance with Article 335 of the Law on Corporate Enterprises, and where the capital reduction is carried out to provision a voluntary restricted reserve for the amount equivalent to the decrease of the nominal value of the shares, with the only possibility to be used according to the requirements set for the share capital reduction, the Company's creditors do not have the right to challenge the share capital reduction.

For the purposes of the provisions of Article 171.2 of the Trade Register Regulations (*Reglamento del Registro Mercantil*), it is hereby stated that the Company's balance sheet used as a basis for the adoption of the present resolution is that corresponding to the financial statements closed on 31 December 2020, verified by the accounts auditor of the Company, PricewaterhouseCoopers Auditores, S.L., and whose approval by the General Meeting is included in item One of the agenda.

The capital reduction shall be executed in a term no longer than six months from the date on which the condition precedent it is subject to is met, to notarise the present resolutions and the presentation in the Trade Register of Malaga of the corresponding notarial instrument for registration. In any case, this resolution will be executed after the registration of the Merger.

(B) Update of the legal reserve and voluntary reserves

The Company's legal reserve amounts to 155,931,621.88 euros (taking into account the approval of the allocation of profit submitted to the general meeting under item Four of the agenda), representing 23.491985% of the share capital resulting from the present capital reduction. Consequently and for the purposes thereof, it is stated that once the present agreement becomes effective, if applicable, the excess of legal reserve over the amount representing 20% of the share capital resulting after the present reduction, will be incorporated to the unrestricted reserves.

(D) Delegation of powers

It is agreed to delegate powers to the Board of Directors, as broadly as may be necessary in Law, with express power to sub-delegate to the Chairman, the CEO, one or several directors, the Secretary and Vice-Secretary, for any of them indistinctly to execute the current agreement, including but not limited to:

one or several times, debentures (*obligaciones*), bonds (*bonos*), preferred shares (*participaciones preferentes*) and other fixed income securities or debt instruments of similar nature convertible into shares of the Company, in accordance with the following conditions:

A) Securities to be issued

C) Maximum amount

The aggregate maximum amount of the issuance(s) of securities under this delegation will be 500 million euros or its equivalent in another currency.

D) Scope of the delegation

Under the delegation agreed in this resolution, the Board of Directors, by way of illustration and without limitation, will be in charge of determining for each issue its amount, subject to the aforesaid overall quantitative limit; the place of issue –in or out of Spain–, and the currency, with the euro equivalent thereof in the case of foreign-denominated issues; the name or type, whether bonds (*bonos*), debentures (*obligaciones*), preferred shares, or any other legally admissible type –including capital instruments foreseen in articles 51 to 55 of the Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26 June 2013, on prudential requirements for credit institutions and investment firms–; the issue date or dates; the circumstance of the securities being necessarily, contingently or voluntarily convertible, and, if voluntarily, whether at the option of the holder of the securities or of the issuer; the interest rate, dates and procedure for the coupon payment; whether they are redeemable or not (including, if applicable, the possibility of redemption by the issuer) and, if applicable, the timing and types of redemption (total or partial), the nature of perpetual or for a term and, in that case, the maturity date; the type of reimbursements, premiums and lots; the guarantees, including mortgages; the form of representation, whether certificates or book entries; the number of securities and their nominal value (which, as they are convertible securities, shall not be lower than the nominal value of the shares); the preferential subscription right, if applicable, and subscription scheme; the law applicable to the issue, whether national or foreign; requesting, if applicable, to have the issued securities admitted to trading on secondary markets, official or unofficial, organised or over the counter, in or out of Spain, subject to the pertinent legal requirements that apply in each case; and, in general, any other condition of the issue, and, if applicable, appointing the commissioner and approve the fundamental rules that will govern legal relationships between the Company and the syndicate of holders of the securities issued that, if applicable, may exist.

The delegation also includes the conferral to the Board of Directors of the power to, in each case, decide with regard to the redemption conditions of the securities issued under this authorization, being able to use insofar as applicable the redemption means referred to in Article 430 of the Law on Corporate Enterprises or any others which may be applicable. Likewise, the Board of Directors has power to, when deemed appropriate, and subject to

obtaining the required official authorizations and, if applicable, conformity from the Assemblies of the relevant syndicates or representative bodies of securities holders, modify the conditions of the redemption of the issued securities and their respective maturities and interest rates, which, where appropriate, result from each of the issues carried out under this authorisation.

E) Bases for and forms of conversion

For purposes of determining the bases for and methods of the conversion into shares of the Company, it is resolved to establish the following criteria:

- (i) The securities issued under this resolution may be exchanged for new shares of the Company, using a conversion ratio that may be fixed (determined or determinable) or variable (which may include maximum and/or minimum limits to the conversion price), the Board of Directors being authorised to determine whether they are necessarily, contingently or voluntarily convertible, and if voluntary, whether at the option of the holder or of the issuer, with the regularity and over the term established in the issue resolution, which may not exceed fifty (50) years after the issue date. The aforesaid maximum term will not apply to perpetual securities that are convertible.
- (ii) In case of a fixed conversion ratio, for the purposes of the conversion, the fixed income securities will be valued at their nominal value, and the shares, at the exchange rate determined in the resolution of the Board of Directors where it uses this delegation, or at the exchange rate to be determined on the date or dates indicated in the Board resolution itself, on the basis of the stock market trading price of the Company shares on the date(s) or in the period(s) taken as reference in that resolution, with or without a premium or with or without a discount, and in any case with a minimum of the highest among (a) the mean exchange (arithmetic or weighted) of the shares in the Continuous Market of the Spanish stock exchange, as per the closing prices, mean prices or other price reference, during a period to be determined by the Board, no longer than three months nor shorter than three calendar days, and which must end not later than the day before the adoption of the resolution to issue the securities by the Board, and (b) the exchange of the shares on the same Continuous Market as per the closing price of the day before the adoption of the mentioned issue resolution.
- (iii) It also may be resolved to issue the convertible fixed-income securities with a variable conversion ratio. In this case, the share price for the purposes of the conversion will be the arithmetic or weighted mean of the Company's share closing prices, mean prices or other price reference in the Continuous Market during a period to be determined by the Board of Directors, no longer than three months and no shorter than three calendar days, which must end not later than the day before the conversion date, if applicable, with a premium or a discount on that price per share. The premium or discount may be different for each conversion date of each issue (or, if applicable, for each tranche of any issue), although no discount fixed on the share price may be greater than 30%. In addition, a minimum and/or maximum reference price may be set for the shares for purposes of their conversion, on the terms decided by the Board.
- (iv) If the issue is convertible and exchangeable, the Board may establish that the issuer reserves the right to opt, at any time, between the conversion into newly-issued shares or the exchange for shares in circulation, determining the nature of the shares to deliver when making the conversion or exchange, being able even to opt to deliver a combination of newly-issued shares and pre-existing shares. In any case, the issuer shall

respect the equal treatment to all the holders of fixed income securities who convert or exchange on a same date.

- (v) At the time of the conversion, the fractions of shares payable to the holders of debentures will by default be rounded down to the nearest whole number. The Board shall decide whether each holder will receive any resulting difference in cash.
- (vi) Under no circumstances may the value of the share used to calculate the conversion of debentures into shares be lower than its nominal value. Pursuant to Article 415.2 of the Law on Corporate Enterprises, debentures may not be converted into shares when the nominal value of the debentures is lower than that of the shares. Convertible debentures may not be issued for an amount lower than their nominal value.

When an issue of convertible securities is approved under the authorisation conferred by the General Meeting, the Board of Directors will issue a directors' report developing and explaining, following the above mentioned criteria, the basis and methods of the conversion that will apply specifically to that issue. This report will be accompanied by the relevant report of the accounts auditor referred to in Article 414 of the Law on Corporate Enterprises, considering that, according to a systematic interpretation, after the amendments introduced in the Law on Corporate Enterprises, and especially in Article 417.2 b), by the Law 22/2015 of 20 July on accounts auditing, the reference to "accounts auditor" other than the Company's accounts auditor, must be understood as made to an "independent expert" other than the Company's accounts auditor.

F) Capital increase and exclusion of the right to preferential subscription in convertible securities

The delegation in favour of the Board of Directors also includes, by way of illustration and with no limitation, the following powers:

- (i) The power for the Board of Directors, under the provisions of Articles 308, 417 and 511 of the Law on Corporate Enterprises, to partially or totally exclude the right to preferential subscription of shareholders, when required for raising financial resources in international markets, for using techniques for demand prospection or when justified in the Company's best interest under a certain issue of convertible securities which, under this authorization, the Board resolves to make. In any case, if the Board decides to waive the preferential subscription right in relation to a certain issue which eventually decides to make under this present authorization, it shall draft, when approving the issue and in accordance with the applicable regulations, a report indicating the specific reasons of corporate interest justifying the said measure, which will be the object a subsequent report by the independent expert different from the Company's account auditor and appointed by the Trade Register, in accordance with the systematic interpretation of the provisions of Article 511.3 of the Law on Corporate Enterprises, by reference of Articles 308, 417.2 and 505 of the Law on Corporate Enterprises. The said reports will be made available to shareholders and notified to the first General Meeting held after the issue resolution, without prejudice to its prior voluntary publication to comply with recommendation 5 of the Good Governance Code.
- (ii) The power to increase the capital in the amount needed to cover the conversion requests. The said power will only be exercised where the Board, adding the capital increased to cover the issue of convertible debentures and, if any, the other capital increases agreed under authorizations granted, if any, by the General Meeting, does not exceed the limit of half the figure of the share capital set in Article 297.1.b) of the Law

on Corporate Enterprises and 20% of the total share capital amount if the issue of the convertible securities waives the right to preferential subscription of shareholders. The said limit of 20% will not be applicable in relation to issues that are perpetual or without a conversion and/or redemption term and whose conversion is eventual and intended to meet eventual requirements for the eligibility of the securities issued as capital instruments in accordance with the solvency regulations applicable at any time (“CoCos”) where the preferential subscription right is waived and which may be agreed under this delegation, the general limit of half the share capital being therefore applicable to those issues. This authorization to increase the capital includes authority to issue and put into circulation, in one or several times, the representative shares that may be needed to effect the conversion, as well as to re-word the article in the Bylaws related to the amount of capital share and, if applicable, to cancel the part of the said capital increase that has not been needed for the conversion into shares.

- (iii) The power to develop and determine the bases and methods for the conversion, taking into account the criteria set in section E) above and, in general, in its broadest terms, determining all those aspects and terms that may be necessary or convenient for the issue.

The Board of Directors, in the subsequent General Meetings organized by the Company, shall inform shareholders of the use that, if so, has made so far of the delegation to issue securities convertible into shares of the Company.

G) Admission to trading

The Company shall apply, when appropriate, for the admission to trading on official or unofficial secondary markets, organized or not, in Spain or abroad, of the securities issued under this delegation, giving powers to the Board of Directors to carry out the necessary processes and actions for admission to trading before the competent bodies of the different securities market, in Spain or abroad.

It is expressly stated that the Company is subject to the existing rules or to those that may be applicable in relation to trading, especially on trading, permanence and delisting, and the commitment that, if delisting of the securities or shares is later requested, this shall be adopted with the formalities required by the applicable regulations.

H) Replacement

The Board of Directors is authorized to, in turn, delegate (with power of replacement when corresponding) to the Executive Committee, if constituted, or to any director with delegated powers, those powers conferred under this resolution and which can be delegated, and without prejudice to the existing powers granted or to those which may granted in relation to the contents of this resolution.
