### **Suitability of the Board as a whole**

The Board of Directors assumes the conclusion of the Appointments Committee on the collective suitability of the Board of Directors which would result from the ratification and appointment as directors of all the candidates referred to in this report. In that sense, it considers that the Board of Directors, with the analysed composition, both individually and collectively, would meet the suitability requirements needed to perform its duties. All of the above taking into account the business model, risk appetite framework, strategy and markets on which Unicaja Banco operates, and that it would have the effective capacity to make its decisions independently and autonomously to the benefit of the Company.

Once the selection process for the new director is completed and the vacancy is filled by a new independent director, of the fifteen directors that will comprise the Board, one would be an executive director (6.66%), six would be proprietary directors (40%), seven would be independent directors (46.66%) and one would be other external director (6.66%), so that the non-executive directors would constitute an ample majority of the Board, in accordance with Recommendation 15 of the Good Governance Code of Listed Companies.

On the other hand, the proportion of independent directors exceeds one third of the total number of directors, a proportion that is recommended for highly capitalized companies with a shareholder controlling more than 30% of the share capital, thus complying with Recommendation 17 of the Good Governance Code of Listed Companies.

As for gender distribution, regardless of the gender of the new director appointed to fill the existing vacancy, the current composition complies with Recommendation 15 of the Good Governance Code of Listed Companies, since there are six women directors at the Board of Directors, which is equivalent to 40% of the total number of its members.

- All the candidates have the good commercial and professional repute, honesty and integrity required for a sound and prudent management of the Company.
- All the candidates have the appropriate knowledge and experience, as well as the competences needed for performing the position of Director at Unicaja Banco.
- All of them have the capacity to dedicate sufficient time to the responsibilities and obligations arising from their positions.
- All the candidates are in a position to perform a good governance of the Company and have the capacity to act with independent criterion.
- All the candidates comply with the maximum number of positions and the incompatibilities regime established in Article 26 of the Law 10/2014 and its implementing provisions.

### **Collective suitability of the Board of Directors**

The Appoints Committee has also analysed the composition of the Board of Directors which would result from the ratification and appoint as directors of all the candidates referred to in this report. It concludes that the Board of Directors, with the said composition, would meet, both individually and collectively, the suitability requirements needed to perform its duties. All of the above taking into account the business model, risk appetite framework, strategy and markets on which Unicaja Banco operates, and that it will have the effective capacity to make its decisions independently and autonomously to the benefit of the Company.

Specifically, the Committee considers that, with the ratification and appointment of directors, the Board of Directors will have, as a whole, sufficient knowledge and experience to address all of the areas of knowledge needed for the development of the Institution's activities, with the new incorporations strengthening the areas of auditing, risk management, sustainability and IT.

The Committee considers that the maintenance of the composition of the Board of Directors with fifteen members (within the range of 8-15 members established in Article 16 of the Bylaws) complies, in terms of size, with the best corporate governance practices (Recommendation 13 of the Good Governance Code).

Once the vacancy is filled by an independent director, of the fifteen directors, one would be executive director (6.66%), six would be proprietary directors (40%), seven would be independent directors (46.66%) and one would be other external director (6.66%). Therefore, non-executive directors would constitute an ample majority in the Board, thus following the Recommendation 15 of the Good Governance Code.

The ratio of independent directors exceeds one third of the total directors, a ratio recommended for highly capitalized companies where a shareholder controls more than 30% of the share capital, thus meeting Recommendation 17 of the Good Governance Code.

As for gender distribution, regardless of the gender of the director appointed to fill the existing vacancy, with the current composition of the Board, the Recommendation 15 of the Good Governance Code is complied with, as it is be composed by six women directors, equivalent to 40% of the total of the Board members.
